It has been reported in papers that the Central Secretariat is being reorganized on the principle of manageability of charge and homogeneity of functions for every Secretary. This is a very healthy principle. There is neither manageability of charge nor homogeneity of functions in the work of the General Secretary to Government, at present.

During the month of October, 1949 as many as 1644 files from the several branches, 1223 files from the several Ministers and 1615 telegrams were received by the General Secretary. This is a very heavy charge and the work could not be coped up without taking files home and attending to them till the late hours of the night. The General Secretary is given variety of subjects to be dealt with and he has to serve eight Ministers, attend to their calls and attend several meetings. Even in the branches under him there is diversity of control. He has as many as 8 Assistant Secretaries working under him. Some of these Assistant Secretaries are working under two Secretaries.

With such a charge and organization, the quality of work suffers considerably.

The Grow More Food Campaign has now been declared to be undertaken on a war basis and considerable amount of money will be given by the Dominion Government to carry out the Grow More Food Scheme. Already, considerable number of letters are coming in every day and the work will increase more and more. This work does not brook delay and prompt attention has to be paid to the same.

It will also be very much better in the interests of Grow More Food Campaign that Food is also included in the work of the General Secretary so that proper perspective and co-ordination may exist between the departments of Food, Agriculture and Grow More Food.

With a view to achieve manageability of charge and homogeneity of functions and with a view to implementatorily the Grow More Food Scheme, it is suggested that

transferred from the Food Secretary and that the following items of work may be taken away from the General Secretary and given over to the Food Secretary:-

1. Traffic Board & Road Taxes.
2. S. P. C.
3. Weights and Measures.
4. Labour
5. Workman's Compensation.
6. Statistics.
7. Economic Conference.
8. Post-war Reconstruction.
9. State Administration Report.
10. Geology & Mines.
11. Museum.
12. House Rent Control.
13. Municipalities & Trust Boards.
14. Refugees.

The General Secretary will retain in addition to food

1. Agriculture,
2. Animal Husbandry including Civil Veterinary,
3. Horticulture,
4. Agricultural Marketing,
5. Co-operation and
6. Forest.

Though the number of subjects to be transferred to the Food Secretary are large, the quantity of work in these subjects will almost be equal to the work relating to food which may be taken away from him.

The General Secretary may be designated as "Secretary, Food and Agriculture" and the Food Secretary as "Secretary, Medical and Civil Supplies."

As the above mentioned proposals will not reduce the quantum of work to be done by the General Secretary but will achieve the object of homogeneity, he may be given the assistance of an Under Secretary to relieve the Secretary of the considerable routine work. It is not necessary to create a fresh post of an Under Secretary. A senior Assistant Commissioner may be posted in place of one of the Assistant Secretaries.

I request that early orders may kindly be passed in regard to the above proposals.

CHIEF SECRETARY,
WITH COMPLIMENTS.

It has been reported in papers that the Central Secretariat is being reorganized on the principle of manageability of charge and homogeneity of functions for every Secretary. This is a very healthy principle. There is neither manageability of charge nor homogeneity of functions in the work of the General Secretary to Government, at present.

During the month of October 1949 as many as 1644 files from several branches, 1223 files from the several Ministers and 15 tappals were received by the General Secretary. This is a very heavy charge and the work could not be coped up without taking files home and attending to them till the late hours of the night. The General Secretary is given variety of subjects to deal with and he has to serve eight Ministers, attend their calls and attend several meetings. Even in the branches under him there is diversity of control. He has as many as 8 Assistant Secretaries working under him. Some of these Assistant Secretaries are working under two Secretaries.

With such a charge and organization, the quality of work suffers considerably.

The Grow More Food Campaign has now been declared to be undertaken on a war basis and considerable amount of money will be given by the Dominion Government to carry out the Grow More Food Scheme. Already, considerable number of letters are coming in every day and the work will increase more and more. This work does not brook delay and prompt attention has to be paid to the same.

It will also be very much better in the interests of Grow More Food Campaign that Food is also included in the work of the General Secretary so that proper perspective and co-ordination may exist between the departments of Food, Agriculture and Grow More Food.

With a view to achieve manageability of charge and homogeneity of functions and with a view to implement satisfactorily the Grow More Food Scheme in all its varied aspects, it is suggested that the work relating to food may be transferred.

transferred from the Food Secretary and that the following items of work may be taken away from the General Secretary and given over to the Food Secretary:-

1. Traffic Board & Road Taxes.
2. S. P. C.
3. Weights and Measures.
4. Labour
5. Workman's Compensation.
6. Statistics.
7. Economic Conference.
8. Post-war Reconstruction.
9. State Administration Report.
10. Geology & Mines.
11. Museum.
12. House Rent Control.
13. Municipalities & Trust Boards.
14. Refugees.

The General Secretary will retain in addition to food

1. Agriculture,
2. Animal Husbandry including Civil Veterinary,
3. Horticulture,
4. Agricultural Marketing,
5. Co-operation and
6. Forest.

Though the number of subjects to be transferred to the Food Secretary are large, the quantity of work in these subjects will almost be equal to the work relating to food which may be taken away from him.

The General secretary may be designated as "Secretary, Food and Agriculture" and the Food Secretary as "Secretary, Medical and Civil Supplies."

As the above mentioned proposals will not reduce the quantum of work to be done by the General Secretary but will achieve the object of homogeneity, he may be given the assistance of an Under Secretary to relieve the Secretary of the considerable routine work. It is not necessary to create a fresh post of an Under Secretary. A senior Assistant Commissioner may be posted in place of one of the Assistant Secretaries.

I request that early orders may kindly be passed in regard to the above proposals.

References pending with
Case-workers as on 31.12.1949
in the Agri. & Forest Branch

The several case workers of (i) Food Prodn.,
(ii) Agriculture (iii) Cooperation, & (iv) Forest
Sections of the Branch have submitted
all the submitted references upto the
end of December 1949 and they are
all under ^{several} stages of disposal.

In the A.H. Section, there are 8 references
of which two (Nos. 4452 and 4455)
dated 16.12.49 are pending for want of
connected references. The other six are
those received on 28th & 31st December. These
will also be dealt with expeditiously.

For kind perusal

(Sd/-) [Signature]

On account of heavy work in this branch two First
Division Clerks had been got sanctioned and since they had not
been posted, there was a little accumulation of arrears. As
against two First Division Clerks only two Second Division
Clerks were posted to this branch recently. With great
difficulty and making the existing clerks work over-time and
even on holidays, all the references received in the branch
(except 8) prior to 31st December 1949 have been got attended
to and the work is fairly up-to-date.

A separate reference has been made to the Chief
Secretary to post two First Division Clerks to this branch
(and not the Second Division Clerks who have been posted now)
since what are wanted are case-workers and not the Second

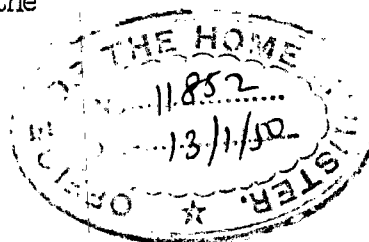

37

Work in A & F Branch

5257
A & F

Second Division Clerks.

It will also be necessary to form a separate branch for Grow More Food and also to reallocate the work amongst the Assistant Secretaries and Secretaries for which separate references have already been made.

Min^r June / am12/1/50. M₁₃ 1

There was very heavy pressure in this section of the Secretariat when I took charge. There is a realisation in distributing the work among the secretaries. I have suggested a number of times that a proper distribution of allied subjects is necessary. Moreover the staff required should also be given in immediate effect. I would suggest that the following subjects be dealt with by the Secretary for Food and Agri:

- 1 Food
 - 2 Civil supplies
 - 3 Agri. meteorology
 - 4 Animal husbandry
 - 5 Gardens
 - 6 Coot
 - 7 Coot marketing
 - 8 Grow more food
- 9) subsidiary work
10) Land and water
11) Loans
12) Coot
13) Coot marketing
14) Grow more food

work in A + F Branch

3196
CS

38

This may be taken up immediately after the

redistribution of portfolios amongst

ministers. Comprehensive proposals re

distribution of work amongst secretaries

are necessary before ~~the~~ taking a decision.

I ~~remember~~ remember to have called for
such proposals some time ago.

KCC
19/1/50

24
Auz 19/1

Proposals have been worked
out, and are kept by for want
of information re. the number of Ministers
in the Cabinet, and the distribution of
portfolios amongst them. This work
is req. to allocate work amongst
Secretaries on a rational basis.

Chief Minr) 116

EXTRACTS OF PARAS 5 TO 18 OF THE FILE 6882/0. Re: to Continuance
of two posts of I an clerks in the Education Branch:-

5) The number of receipts in the Branch during the year 1948-49 as compared with those of 1946-47 and 1947-48 is given below:-

<u>1946-47</u>	<u>1947-48</u>	<u>1948-49</u>
7,559	10,235	13,648

6) The increase in 1948-49 is 80% over that of 1946-47 and 30% over 1947-48.

7) The receipts are mostly effective and about 10% only are routine. With this increase it is not possible to keep the branch efficient and up-to-date unless extra hands are given. With a view to meet the increased work in the year 1947-48, two I Division Clerks were sanctioned but the further increase in 1948-49 not only necessitates the continuance of the two hands but also sanctioning additional hands.

8) The work connected with the N.C.C. and Foreign Scholarships is on the increase. Besides references from the Government of India regarding its educational, social and cultural activities are being referred to the Education Branch. The Educational concessions to the children of the Refugees and the Military Personnel are dealt with in this Branch. The normal activities of the Department of Education and the University have increased. The technical Education is being expanded. All this is evident from the increased budget allotment for the year 1949-50.

9) The receipt of petitions is increasing day by day. It has to be stated here that on most of the petitions reports are called for, thus leading to the building up of files. Every request made in the petition has to be given equal attention and this naturally involves very heavy work.

UP Bifurcation of the Education Branch

-2-

10) The University and Secondary Education in the State has to be re-organised on the receipt of Dr. C.R. Reddy's report. It may be safely presumed that it will involve enormous labour on the part of all the Sections of the Branch, which are already having very tight work.

11) From the foregoing it is therefore clear that not only the two additional hands sanctioned should be continued but also the Branch should be further strengthened. To put the need at its minimum, two II Division Clerks atleast are required, one to attend to petitions and another to the work regarding Diaring.

12) The foregoing will also make out a clear case for another typist in the Branch. The two hands now working are quite inadequate. Not only the number of drafts to be typed has increased abnormally but also the Government Orders and the Circulation and Council Notes are usually lengthy besides having big enclosures. This is in the nature of subjects dealt with in the Branch. The subjects regarding Education are really complicated and have to be dealt with exhaustively to bring out the intention of the Government. So far it was a herculian task to bring the typing work up-to-date. Whenever there was accumulation the subordinate offices were begged to spare their typists and to send spare copies of the enclosures. The accumulation would some times go up to 200 files and anybody would despair at this figure. The Secretariat to be at the mercy of the subordinate offices for typing is something that does not go with the dignity and status of the Secretariat. But this was being done still with no credit of saying that the typing work was up-to-date.

Branch:

-3-

There used to be so many important and urgent references to be made to the Government of India but they were many a times delayed for want of typists. It is not the number of drafts but the nature of drafts that has to be taken into consideration in deciding the number of typists required for the Branch. It may be said that the two typists have sincerely worked but they find it impossible to cope with the work. There is therefore absolute necessity to post another typist to the Branch forthwith. It may be even said that the necessity is greater than the posting of clerks.

13) There is yet another point for consideration. From what is stated above it is quite clear that the bifurcation of the Branch, which was recommended by the Auditor who inspected the Branch last year, is quite essential. This was proposed to be taken for consideration next year i.e., during 1949-50 and this is the time to take up the question. One Superintendent and one Assistant Secretary, find it rather impossible to make an effective supervision of the Branch. To say about the Assistant Secretary, inspite of his best efforts to cope up with the work even working at home and on holidays he finds it an uphill task to attend to the normal files, let alone inspection of the Branch. The same thing could be said of the Superintendent. Hence it is submitted that the question of bifurcation may be kindly taken up immediately.

14) The present diarist is finding it impossible to register the receipts. With the result, he does not find time for the regular preparation of monthly inspection

Q Re: Bifurcation of the Education
U Branch:

-4-

reports. Two Diaries will have to be maintained as is done in the Protection Branch, one for the Education Department and R and P.S. Section and another for the University and Technical Education. This requires a II Division Clerk and will have to be provided as stated above.

15) In brief the immediate requirements of the Branch are as follows:-

- ✓ 1. Continuance of the two I Division Clerks on a permanent basis from 1-7-1949.
- ✓ 2. Posting of the other I Division Clerk as this has not been done so far.
- ✓ 3. Sanctioning atleast two II Division Clerks - one for attending to petitions and another to maintain the 2nd Diary.
- ✓ 4. Sanctioning a third typist.
This is most urgent.
- 5. Bifurcation of the Branch.

Education Secretary)

Intd. H. L. N.
1/7/49.

16) Considering the volume of work hitherto being handled in the branch and keeping in view the details to be worked for setting up of a new policy as a result of the recommendation of Dr. Reddy it is necessary that the immediate requirements of the branch viz., 1 to 5 set forth in the above note are sanctioned.

Chief Secretary }
with compliments. }

Intd. K. N. N.

await the orders of Govt. on the
 Report of Dr. C.P. Reddy regarding
 the Reorganisation of the Educational
 System in the State. The distribution
 of work between two Branches will
 have to be ^{made} having regard to the
 change of educational system that
 may have to be effected. In this
 view, this question will ^{may} be taken
 soon after orders of Govt. are passed
 on the report of Dr. C.P. Reddy, subd.

22.7.1949

23) A - This will take time and
 I find it impossible in the meantime
 to cope up with the work. I therefore
 suggest that the following items ^{work}
 may be entrusted to any Assistant Secy
 who has got lighter work, so that
 I may get some relief immediately.

- 1) Foreign Scholarships, Study leave
 and Deputation Cases.
- 2) National Cadet Corps.
- 3) Educational Facilities to
 Refugee Students.

18/9/49

The A.S. special
Rev Br attends to
only ex cise work
so far as Rev. Secy
is concerned. I have
no objection to the
proposal.

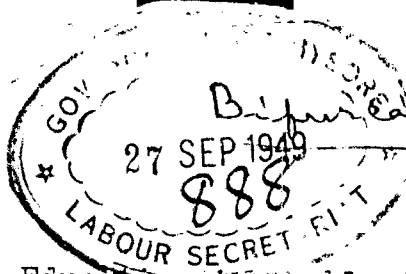

8
13/9

52 5

I am afraid that, for reasons explained below, it will not be practicable for the Assistant Secretary, Labour, to take up any part of the work of the Education Branch.

First, with regard to the quantity of work. As against 1868 receipts registered in the Labour Secretariat last year when the Labour Section was only a part of the Special Revenue Branch, the receipts in the new Secretariat during these three months (or slightly less) number 850, almost all of them being effective. As against some extra establishment allowed for the Education Branch in view of increase of work, one hand out of the normal establishment allowed to this Secretariat has been on privilege leave and no substitute has been posted. The increased attention that is paid to petitions in the other Branch is being paid here also, and while the petitioners in the other case are usually educated and cultured, the Labour Secretariat has to deal with a very much more difficult set of persons so that prompter action is called for on petitions received here. Like the Education Branch, the Labour Secretariat also transacts business of a highly technical nature, administering a large number of Acts and just now framing Rules under most of them, so that neither the quality nor the quantity of the work of this Secretariat could be accurately gauged by mere statistics of Receipts and Issues. The Legislation Branch for example has received a smaller number of receipts than Labour Secretariat, but it would be incorrect to say that the former is worked any less than the latter. But if, as stated, the Assistant Secretary,

Bifurcation of Education Branch

27 SEP 1949

888

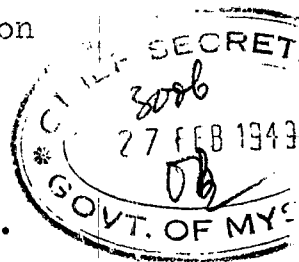

- 2 -

Education, is unable to cope up with his work, some other remedy may have to be found so that the work may not suffer.

The Revenue Secretary has no objection to some of the work of the Education Branch being entrusted to the Assistant Secretary in charge of the Special Revenue Branch. This should give the Assistant Secretary, Education, some relief, and when the proposed bifurcation is effected the relief to him is bound to be substantial.

It may not also conduce to efficient disposal of business if part of the work of the Education Branch is tacked on to another Branch of a highly technical nature like the Labour Secretariat. Besides, the work of this latter Branch is expanding from day to day, and as each Act and the Rules thereunder are being enforced, the number of references relating to newer establishments, &c., that are being received is steadily rising. Many newer schemes concerning the housing of labour, Wage Boards, Conciliation Courts, Arbitration Tribunals, &c., are actively engaging attention. Steps are afoot to bring our various Labour Laws into line with Central Enactments and this entails considerable work and responsibility. On top of all this, the Agricultural Labour Enquiry has recently commenced and arrangements for the forthcoming Session of the Governing Body of the International Labour Organization are being actively taken on hand. In the meantime the Labour Secretariat has agreed to take over from the Special Revenue Branch work relating to Economic Conference and Post War Reconstruction (in addition to Resettlement and Employment).

Thus, this Secretariat is not in a position to take up any further items of work and discharge them satisfactorily.

CB
Chiy. Secy
27/9/49
27/9
This has to be dealt with along with the arrangements for the General Session of the Labour Secretariat.
